LCIW - "Other" includes 2 Pulmonary, 1 Rheumatology, 1 GI, 13 Ultrasounds, 10 CT Scans, 8 Diagnostic Mammograms, 2 MRI's, and 12 Radiation Therapy.

=====

LSP - Total Referrals decreased due to one Doctor being out on FMLA and two on vacation. Surgery increased due to more inmates being scheduled this month.

ENT increased due to us receiving more appointments this month. Internal Medicine increased due to more patients being scheduled this month.

Hematology/Oncology increased due to two inmates have to be seen once a week and one new patient. Physical Therapy increased due to them not missing any days this month. Ophthalmology increased due to more inmates being scheduled this month. HIV decreased due to the Doctor missing two days this month. HIV numbers were high last month due to the inmates being seen at EKL as well.

Oral Surgery decreased due to Doctor Ragusa being here only three times this month. Other decreased due to Chiro being out a few days this month.

=====

PCC - DECEMBER/2007 - We are evaluating the necessity of referrals on an individual basis. Return appointments are counted as a referral. Return appointments are also being evaluated for necessity. Referrals: Completed referrals means that a clinic date has been given, not that they have actually been to clinic.

Physical Therapy is where bandage changes are done on an inmate with serious leg ulcers due to vascular problems. They are also supplying the needed material for us to do the changes in between trips. The increase in the number of clinic consults is due to one cancer patient, surgeries and follow up appointments.

AVC - AVC has a full-time Medical Director which is reflecting in the increase in Doctor's Call-Out. The hospital admits were up, one inmate was admitted to HPL twice during the month of December. According to the Pharmacist, due to the many holiday, and only one refilling cycle in the month of December, there is a decrease in New Rx, and refill Rx. The number of labs shows an increase from November, as the lab total for November should have been 80 not 33.

DWCC - Inmate days in hospital 40, Inmate sent to ER because of injury 1

EHCC - December 2007- We had 4 holidays in this month which cause the number to decrease in some cases.

LCIW - One of the RDC inmates listed under offsite hospital admissions was already inpatient at LSU Shreveport when she was transferred to LCIW from parish. She remains hospitalized.

LSP - Sick call decrease is attributed to the farm lines working fewer days this month due to the holidays. Doctor's Call decreased due to the holidays and one doctor off on FMLA and two were out on vacation this month. Optometry increased due to more inmates being scheduled this month.

PCC - DECEMBER/2007 - Dental call increased due to the number of new inmates screened. Infirmary admits and length of stay increased due to one with a 12 day for MHO (C-PAP Machine), cancer and chemo, flu symptoms, joint pain. Pharmacy doses decreased due to the types of medications ordered. Lab decreased by 206. Fifty-three were seen in Chronic Care Clinic this month. The majority of these were follow up appointments.

WCI - The Doctor & Dental Call numbers down this month due to the holidays during the month. Prevention Education numbers down due to less number of inmates on call outs to the Infirmary. Other numbers down due to less bandage changes due to less skin infections; lab numbers down due to doctor being off and not here to order lab work and less trip encounters than last month.

FWADE - Other - Treatment, PPD, Eye Glasses, EKG, Lab, Release of Info., Trip Returns, Intake, Kitchen Assessments, Consent forms, & Injections. The number of days inmates where at off site hospital: 116

SHRC - Dental callout increased due to initial screenings

WTFN - DENTAL = 0 > CONTRACT DENTIST; NO SERVICES PROVIDED IN DEC. 2007

FRDC - One of the RDC inmates listed under offsite hospital admissions was already inpatient at LSU Shreveport when she was transferred to LCIW from parish. She remains hospitalized.

DCI - All 4 DOC Convertors housed @ DCI less than 1 year

EHCC -

LCIW - TB/PPDs: Of the 72 RDC admissions, 3 did not receive PPD's. One inmate had a h/o past (+), with documentation of INH therapy, one was on MHO and was too psychotic to permit testing, and one was an inpatient at LSU Shreveport transferred to LCIW custody by the parish. 1 RDC I/M converted and was started on INH while in RDC. Hep C: 1 RDC inmate was admitted on therapy for HCV and was referred immediately to the HCV clinic; treatment was continued. Skin Infections: 1 RDC was admitted with a skin infection requiring treatment; 5 LCIW I/M required treatment for skin infections, of which 1 cultured (+) for staph.

LSP - PPD'S done decreased due to this being employee testing month.

PCC - DECEMBER/2007 - Inmates on HAART are controlled by the Comprehensive Care Clinic at Moss Regional Hospital. Five inmates were diagnosed with boils or abscesses which required antibiotic treatment. All staff and inmates will have their PPD's done in January/2008.
